About This Content

THE GIRLS OF TIME TRAVEL...

This DLC will upgrade Time Tenshi 2 to Time Tenshi 2: Special Edition! For an overview of the new 5d3b920ae0

Title: Time Tenshi 2: Special Edition (DLC)

Genre: Adventure, Indie, Simulation

Developer:

Silver Cow Studio

Publisher:

Silver Cow Studio

Release Date: 22 Nov, 2016

English

Totally recommended waiting for another DLC. Best DLC I hope you creators update the DLC to add a Hearn ending and one more mission all together. Best DLC I hope you creators update the DLC to add a Hearn ending and one more mission all together. Aside from a few ecchi dating scenes, this DLC doesn't add that much. If you really liked Time Tenshi 2 then go ahead, but don't expect much in terms of dramatic changes. It's a nice addition for people who are playing the game for the first time, but for people who already own the game and are buying this DLC version I'm not sure if it's worth it as much, and if you're new to the game you should just buy the regular Special Edition. But I'm assuming you're here because you liked TT2, so you might as well try it if you want more conveniently covered boobs.. Totally recommended waiting for another DLC
